DETAILED ACTION

Election/Restriction

- 1. This application contains claims directed to the following patentably distinct species of the claimed invention:
- Species I: a QWIL photoelectric device wherein all of the barriers and wells are determined by a single energy E (a full QWIL); and
 - Species IA: a full QWIL wherein the QWIL structure is formed in the "i" region of a pi-n device, to which claims 18, 20 and 21 are directed;
 - Species IB: a full QWIL wherein the QWIL structure is formed in the "p" or "n" region of a device, to which claims 23, 25, 26, 28, 30 and 31 are directed;
- Species II: a QWIL photoelectric device wherein the barriers and wells are determined by differing energies Ei (a partial QWIL); and
 - Species IIA: a partial QWIL wherein the QWIL structure is formed in the "i" region of a p-i-n device, to which claim 19 is directed;
 - Species IIB: a partial QWIL wherein the QWIL structure is formed in the "p" or "n" region of a device, to which claims 24 and 29 are directed.

2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently:

- a. claims 1, 2, 7 and 13 are generic.
- b. claims 3, 4, 8, 10, 11 and 14-16 are generic to inventions IA and IB.
- c. claims 5, 6, 9 and 12 are generic to inventions IIA and IIB.
- d. claim 17 is generic to invention IA and IIA.
- e. claims 22 and 27 are generic to invention IB and IIB.
- 3. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the

examiner finds one of the inventions unpatentable over the prior art, the evidence or admission

may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an 4.

election of the invention to be examined even though the requirement be traversed (37

CFR 1.143).
